- Open Meeting to Working Cities Challenge Grant - New London Steering Committee - Design/Planning Continuation Meeting

As the work has progressed on this project, The Working Cities Challenge Steering Committee have narrowed the geographic focus to the area of the city known as Hodges Square Village.

At the last Hodges Square Village Association meeting, a further focus of *Food as an Innovative Generator of Economic Development* was discussed for consideration. This could take into account:

- Food Production
- Food Incubators
- Food Education
- Food Distribution
- Food Waste Reduction
- Food Insecurity Reduction

This meeting will primarily be a continuation of our efforts with the need to work through these four items:

1. In one sentence, what is the long-term vision (10 year results) that unites us?
 2. In one sentence, what is the economic growth challenge that we want to address through the Working Cities Challenge? (limit 50 words)
 3. What single measure best illustrates the scope of this problem in New London, and how has it changed over time?
 4. What are the existing assets that we can build on to address this problem?
- Adjourn Working Cities Challenge Grant Meeting
